THE THOUGHT PROCESS - ASICON 2024 LOGO

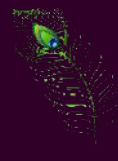

This element depicts the Taj Mahal in Agra within the alphabet "A" which shows the renowned monument as well as the alphabet "A" in ASICON. An immense mausoleum of white marble, built in Agra between 1631 and 1648 by order of the Mughal emperor Shah Jahan in memory of his favourite wife Mumtaz. The Taj Mahal is the jewel of Persian art in India and one of the universally admired masterpieces of the world's heritage.

This element depicts the Ram Mandir in Ayodhya which is considered to be the birthplace of Lord Rama, the seventh avatar of Lord Vishnu. It is a sacred place for Hindus, who believe it is a living connection to their deity. It is nearby Agra and considered as one of the renowned tourist attraction.

The flute is often associated with Krishna's love for Radha symbolizing the power of love and devotion. The soothing music of the flute is said to bring peace and harmony to the world. The flute is often seen as a symbol of Krishna's simplicity, humility, and grace. The flute's music is said to have the power to calm the mind and aid in meditation and yoga practices.

Peacock Feather represents the integral part of Indian culture, representing Beauty, Grace and Spiritual Growth, Enlightenment and path to Self-Realization, which are all associated with Krishna's charming and divine personality.

The Kashi Vishwanath temple is widely recognized as one of the most important places of worship in the Hindu religion. This temple has become an immense attraction for the tourist. The Vishweshwar Jyotirlinga (Kashi Vishwanath Temple) has a very special and unique significance in the spiritual history of India.

Scalpel is an Iconic symbol of Surgeons, representing Skill, Precision and Healing. It represents the trust patient place in their surgeons and the significant responsibility the surgeon has to bear.
