Dear Colleague,

We hope this letter finds you in good health and high spirits as you approach the culmination of your surgical training. As you prepare to embark on your journey of becoming a specialized GI Surgeon, we are delighted to extend an exclusive opportunity that promises to enrich your skills and broaden your horizons in the field of GI surgery.

We are pleased to announce the AIG – IASG Advanced Laparoscopic & Robotic Skill Course, a comprehensive program designed to provide in-depth insights into the latest advancements in laparoscopic procedures. This course, hosted in collaboration with AIG Hospitals and the Indian Association of Surgical Gastroenterology (IASG), brings together renowned experts and pioneers in the field to share their knowledge and expertise.

Key Features of the Course:

Didactic Lectures: Engage with informative sessions that cover the theoretical aspects of advanced laparoscopic surgery, offering a solid foundation for practical application.

Live Transmission: Witness live surgeries conducted by esteemed surgeons, providing a unique opportunity to observe and analyze real-time procedures from the comfort of the learning environment.

Hands-on Workshop: Participate in hands-on workshops facilitated by experts, allowing you to hone your skills under the guidance of seasoned professionals.

We invite you to apply for this prestigious course by submitting your application along with a letter of recommendation from your Head of Department. This recommendation will help us ensure that participants are committed to maximizing their learning experience and contributing positively to the course. This course has been tailor-made for **Second & Final year DNB, MCh Surgical Gastroenterology students**. The applications will be screened by a committee and selected candidates will be intimated.

The logistics will be taken care by the Organizing Committee.

Deadline | **28th FEB-2024**

Submission | Submit your short cv and recommendation letter to
Email : surgicalgastro@aighospitals.com

Seize this chance to enhance your surgical acumen and establish valuable connections within the GI surgical community. We believe that this course will serve as a pivotal step in your journey towards becoming a skilled and proficient medical professional.
